

Replace the showers fund

The showers at the club need to be replaced. Any player that has used these over the last 12 months probably has third degree burns, frost bite or mud all over them still.

We would like to have new showers in place by start of the next season, but until funding is in place we are not able to begin work. A “replace the showers” fund has been set up to cover the cost. If you would like to contribute and help improve the facilities of your club please contact me.

Woody.
